

THE ECONOMIC IMPACT OF
**Vero Beach Municipal Airport
(VRB)**

Aviation's Benefit for Florida

Florida's economic well-being is intrinsically entwined with its vibrant airport system and its robust aviation industry. The aviation system in Florida allows the state to capitalize on an increasingly global marketplace. Aviation in Florida both sustains and leads economic growth and development. Airports in Florida are important economic engines, and support vital health, welfare, emergency, and safety-related services.

Florida's system of commercial service and general aviation airports are important to businesses throughout the state. Air travel is essential to tourism, Florida's number one industry. Protecting and investing in airports throughout Florida will support the aviation industry and the economic benefits described in this report. With continued support, Florida's dynamic aviation system will continue to provide a significant economic return in the years to come.

Florida's Statewide Benefits from Aviation

Florida realizes significant annual economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered direct and indirect economic impacts and induced impacts that result from the multiplier effect. A summary of Florida's annual economic benefits from aviation follows:

Impact Category	Total Employment	Total Payroll (BILLIONS)	Total Output (BILLIONS)
AIRPORTS			
VISITORS ARRIVING BY AIR	170,107	\$8.1	\$36.3
CONSTRUCTION AT AIRPORTS	765,225	\$20.7	\$67.2
MILITARY AVIATION	17,388	\$0.6	\$2.2
AIR CARGO	137,482	\$6.4	\$12.8
AVIATION EDUCATION	129,587	\$5.0	\$10.3
AVIATION BUSINESSES	11,891	\$0.5	\$1.0
FEDERAL AVIATION ADMINISTRATION	76,217	\$2.8	\$13.6
TOTAL ANNUAL ECONOMIC BENEFITS	4,534	\$0.4	\$0.6
	1,312,431	\$44.5	\$144.0

Vero Beach Municipal Airport

Located in the northwest portion of the Vero Beach city limits, Vero Beach Municipal Airport serves all facets of general aviation. With its three runways, the longest of which is 7,314 feet, the airport can accommodate intercontinental general aviation business jet aircraft and most air carrier aircraft. The airport's terminal is ideal for serving local users as well as those visiting the area.

The airport's major tenant is Piper Aircraft, an aircraft manufacturer, followed by Flight Safety International, a world-renowned flight school. In addition to extensive flight training at the airport, business/corporate travel and air taxi/charter services are common activities at the airport. A majority of the airport's transient traffic includes fractional jet companies and flight training operations from other airports. All of the airport's tenants and flight activities are important to the airport's revenue streams and economic impact.

The annual economic impact of Vero Beach Municipal Airport is associated with direct impacts that come from tenants/businesses located at the airport and construction projects that are undertaken by the airport or by on-site businesses. Indirect impacts are associated with spending from visitors who arrive in the area via general aviation aircraft.
