#### THE ECONOMIC IMPACT OF

# Peter Prince Field (2R4)

### Aviation's Benefit for Florida

Florida's economic well-being is intrinsically entwined with its vibrant airport system and its robust aviation industry. The aviation system in Florida allows the state to capitalize on an increasingly global marketplace. Aviation in Florida both sustains and leads economic growth and development. Airports in Florida are important economic engines, and support vital health, welfare, emergency, and safety-related services.

Florida's system of commercial service and general aviation airports are important to businesses throughout the state. Air travel is essential to tourism, Florida's number one industry. Protecting and investing in airports throughout Florida will support the aviation industry and the economic benefits described in this report. With continued support, Florida's dynamic aviation system will continue to provide a significant economic return in the years to come.

## Florida's Statewide Benefits from Aviation

Florida realizes significant annual economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered direct and indirect economic impacts and induced impacts that result from the multiplier effect. A summary of Florida's annual economic benefits from aviation follows:

Impact Category			<b>\$</b> \$	
AIRPORTS		Total Employment	Total Payroll (BILLIONS)	Total Output (BILLIONS)
VISITORS ARRIVING BY AIR	N	170,107	\$8.1	\$36.3
CONSTRUCTION AT AIRPORTS		765,225	\$20.7	\$67.2
MILITARY AVIATION	N	17,388	\$0.6	\$2.2
AIR CARGO		137,482	\$6.4	\$12.8
AVIATION EDUCATION	$\mathbf{N}$	129,587	\$5.0	\$10.3
AVIATION BUSINESSES		11,891	\$0.5	\$1.0
FEDERAL AVIATION ADMINISTRATION		76,217	\$2.8	\$13.6
TOTAL ANNUAL ECONOMIC BENEFITS		4,534	\$0.4	\$0.6
		1,312,431	\$44.5	\$144.0

#### **Peter Prince Field**

Located in Santa Rosa County, approximately three miles east of Milton, Peter Prince Field serves a variety of general aviation activities. With its single 3,701-foot runway, the airport can accommodate small multi-engine general aviation aircraft. The airport's terminal is ideal for serving both local users and those visiting the area.

Flight training accounts for the airport's highest concentration of total activity and is consistently growing. Since the fixed base operator (FBO), Aircraft Management Services Inc., has Part 141 certification for flight training, local or transient users can receive flight instruction at the airport. Peter Prince Field also supports recreational flying and is well-situated to serve the aviation needs of tourist destinations, such as Pensacola, Navarre Beach, and Fort Walton Beach.

The annual economic impact of Peter Prince Field is associated with direct impacts that come from its FBO and construction projects that are undertaken by the airport or the FBO. Indirect impacts are associated with spending from visitors who arrive in the area via general aviation aircraft.
