

THE ECONOMIC IMPACT OF Marianna Municipal Airport (MAI)

Aviation's Benefit for Florida

Florida's economic well-being is intrinsically entwined with its vibrant airport system and its robust aviation industry. The aviation system in Florida allows the state to capitalize on an increasingly global marketplace. Aviation in Florida both sustains and leads economic growth and development. Airports in Florida are important economic engines, and support vital health, welfare, emergency, and safety-related services.

Florida's system of commercial service and general aviation airports are important to businesses throughout the state. Air travel is essential to tourism, Florida's number one industry. Protecting and investing in airports throughout Florida will support the aviation industry and the economic benefits described in this report. With continued support, Florida's dynamic aviation system will continue to provide a significant economic return in the years to come.

Marianna Municipal Airport

Located in Jackson County, approximately four miles northeast of Marianna, Marianna Municipal Airport serves many types of general aviation activities. With its two intersecting runways, the longest of which is 4,896 feet, the airport primarily accommodates twin-engine general aviation aircraft. The airport's terminal is ideal for serving local users as well as those visiting the area.

Marianna Municipal Airport's on-airport tenants include Air Heart, an air ambulance operator, and Air Prop Specialist, an aircraft maintenance business. In addition to flight training activity, most of the airport's activity comes from transient and recreational operations. Local banks in Marianna are the primary local business users of the airport. The airport's tenants and all of its flight activities are important to the airport's revenue streams and economic impact.

The annual economic impact of Marianna Municipal Airport is associated with direct impacts that come from tenants/businesses located at the airport and construction projects that are undertaken by the airport or by on-site businesses. Indirect impacts are associated with spending from visitors who arrive in the area via general aviation aircraft.
