

THE ECONOMIC IMPACT OF The Florida Keys Marathon Airport (MTH)

Aviation's Benefit for Florida

Florida's economic well-being is intrinsically entwined with its vibrant airport system and its robust aviation industry. The aviation system in Florida allows the state to capitalize on an increasingly global marketplace. Aviation in Florida both sustains and leads economic growth and development. Airports in Florida are important economic engines, and support vital health, welfare, emergency, and safety-related services.

Florida's system of commercial service and general aviation airports are important to businesses throughout the state. Air travel is essential to tourism, Florida's number one industry. Protecting and investing in airports throughout Florida will support the aviation industry and the economic benefits described in this report. With continued support, Florida's dynamic aviation system will continue to provide a significant economic return in the years to come.

The Florida Keys Marathon Airport

The Florida Keys Marathon Airport primarily serves a variety of general aviation activities. With its single 5,008-foot runway, the airport can accommodate general aviation business jet aircraft. The terminal is ideal for serving local users as well as those visiting the area, with Avis, Budget, and Enterprise car rental agencies and a U.S. Customs and Border Protection office expected in 2015.

The airport's largest tenants include the Monroe County Sheriff's Department - Aviation Division, Federal Express, and Marathon Jet Center, the airport's fixed base operator. The airport regularly supports corporate/business operations, recreational flying, mosquito control activity, general aviation aircraft charters, air cargo operations, flight training, law enforcement flights, and emergency medical aircraft operations. All of the activity supported by the airport's tenants is important to the airport's revenue streams and economic impact.

The annual economic impact of The Florida Keys Marathon Airport is associated with direct impacts that come from tenants/businesses located at the airport and construction projects that are undertaken by the airport or by on-site businesses. Indirect impacts are associated with spending from visitors who arrive in the area via general aviation aircraft.
