

THE ECONOMIC IMPACT OF Tampa International Airport (TPA)

Aviation's Benefit for Florida

Florida's economic well-being is intrinsically entwined with its vibrant airport system and its robust aviation industry. The aviation system in Florida allows the state to capitalize on an increasingly global marketplace. Aviation in Florida both sustains and leads economic growth and development. Airports in Florida are important economic engines, and support vital health, welfare, emergency, and safety-related services.

Florida's system of commercial service and general aviation airports are important to businesses throughout the state. Air travel is essential to tourism, Florida's number one industry. Protecting and investing in airports throughout Florida will support the aviation industry and the economic benefits described in this report. With continued support, Florida's dynamic aviation system will continue to provide a significant economic return in the years to come.

Florida's Statewide Benefits from Aviation

Florida realizes significant annual economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered direct and indirect economic impacts and induced impacts that result from the multiplier effect. A summary of Florida's annual economic benefits from aviation follows:

Impact Category	 Total Employment	 Total Payroll (BILLIONS)	 Total Output (BILLIONS)
AIRPORTS			
VISITORS ARRIVING BY AIR	170,107	\$8.1	\$36.3
CONSTRUCTION AT AIRPORTS	765,225	\$20.7	\$67.2
MILITARY AVIATION	17,388	\$0.6	\$2.2
AIR CARGO	137,482	\$6.4	\$12.8
AVIATION EDUCATION	129,587	\$5.0	\$10.3
AVIATION BUSINESSES	11,891	\$0.5	\$1.0
FEDERAL AVIATION ADMINISTRATION	76,217	\$2.8	\$13.6
TOTAL ANNUAL ECONOMIC BENEFITS	4,534	\$0.4	\$0.6
	1,312,431	\$44.5	\$144.0

Tampa International Airport

Tampa International Airport is located on Florida's West Coast. The airport has three active runways, the longest of which is 11,002 feet. Facilities at the airport are capable of supporting a full range of commercial aircraft.

Tampa International Airport serves personal, leisure, and business-related travel. Almost 8.5 million enplaning commercial passengers flow through the airport each year; nearly 60 percent are visitors whose spending helps to contribute to the airport's economic impact. The airport is served by approximately 20 different airlines flying to more than 70 different domestic and international destinations. Tampa International also accommodates notable volumes of air cargo and has an on-site Foreign Trade Zone.

Most of the airport's on-site tenants are dedicated to supporting the airlines, commercial passenger travel, and air cargo traffic, although Tampa International also serves general aviation demand. The annual economic impact of Tampa International Airport is associated with direct impacts that come from tenants/businesses located at the airport and on-airport construction projects. Indirect impacts are associated with spending from visitors who arrive in the area via commercial and general aviation aircraft.
