

THE ECONOMIC IMPACT OF Sebastian Municipal Airport (X26)

Aviation's Benefit for Florida

Florida's economic well-being is intrinsically entwined with its vibrant airport system and its robust aviation industry. The aviation system in Florida allows the state to capitalize on an increasingly global marketplace. Aviation in Florida both sustains and leads economic growth and development. Airports in Florida are important economic engines, and support vital health, welfare, emergency, and safety-related services.

Florida's system of commercial service and general aviation airports are important to businesses throughout the state. Air travel is essential to tourism, Florida's number one industry. Protecting and investing in airports throughout Florida will support the aviation industry and the economic benefits described in this report. With continued support, Florida's dynamic aviation system will continue to provide a significant economic return in the years to come.

Sebastian Municipal Airport

Located in Indian River County in Sebastian, Sebastian Municipal Airport serves a variety of general aviation activities, including recreational/sport activity, corporate/business activity, aircraft sales and manufacturing, and flight training. The airport has two intersecting runways, the longest being 4,024 feet, enabling the airport to accommodate multi-engine general aviation aircraft. The airport's terminal is ideal for serving local users as well as those visiting the area and hosts many of the airport's commercial businesses.

Major tenants at Sebastian Municipal include Velocity Aircraft, LoPresti, and RUD Aero, all of which are aircraft manufacturers, and Skydive Sebastian. All of the airport's tenants are important to the airport's revenue streams and to the airport's economic impact.

The annual economic impact of Sebastian Municipal Airport is associated with direct impacts that come from tenants/businesses located at the airport and construction projects that are undertaken by the airport or by on-site businesses. Indirect impacts are associated with spending from visitors who arrive in the area via general aviation aircraft.
