RWY 01

FAR 77 Category A(NP).

RWY 19

FAR 77 Category A(NP).

Approach ratio required is RWY 01 20:1 and RWY 19 20:1.

Primary surface required is 500 feet wide.

Transitional surface required is 7:1.

Safety area required extends 240 feet beyond each runway end.

Deficiencies

Inspection Date 3/17/25 Next Inspection 3/31/26

Deficiencies

Rwy End: 19 In accordance with Chapter 14-60.007(2)(d)1.c., FAC. – For a runway that is paved, that is to be used by an aircraft that weighs less than or equal to 12,500 pounds, and that has a non-precision instrument approach: the transition surface ratio is 7:1.

Runway 19 has fence full length of the runway, 252 feet east of centerline, within the transitional surface.

Runway 19 has trees full length of the runway, 252 to 1,300 feet east of centerline, within the transitional surface.

Runway 19 has earth from 3,553 feet to 3,725 feet after the approach end of the runway, 320 feet to 750 feet right of centerline, within the transitional surface.

Mitigated Deficiencies

Rwy End: 01 In accordance with Chapter 14-60.007(2)(c)1.c., FAC. – For a runway that is paved, that is to be used by an aircraft that weighs less than or equal to 12,500 pounds, and that has a non-precision instrument approach: the approach surface ratio is 20:1.

Runway 01 approach surface ratio is 3:1 due to brush 7 feet tall, 220 feet before the approach end of the runway, 115 feet right of centerline.

Runway 01 threshold is displaced to the approach end of the runway.

Facility Name: Tri-County Airport

Inspection Date: 3/17/2025

Facility Type: Airport

Status: Active

Inspector: David Smith

License

Effective: 07/01/2025

Category: Public Special

Limitations: ☐ Day Use Only

Expires: 06/30/2026

☐ VFR Use Only

Conditions:

The department may revoke, refuse to allow or issue, any license or license renewal, if it determines that the airport does not comply with the conditions of the license, license renewal, or site approval or that the airport has become unsafe or unusable for flight operation due to physical or legal changes that were the subject of approval pursuant to Section 330.30(2)(e), F.S.

A. This Airport has the following landing areas and approach limitations.

1. Runway 01/19 is available for non-precision instrument and visual approaches.

a. Runway 01 is FAR 77 category A(NP).

b. Runway 19 is FAR 77 category A(NP).

2. Helipad H1 is available for visual approaches only.

3. Runway 01 threshold is displaced to the approach end of the runway.

B. This Airport is issued a Special License pursuant to Chapter 330.30(2)(b), F.S.

The department may license a public airport that does not meet standards only if it determines that such an exception is justified by unusual circumstances or is in the interest of public convenience and does not endanger the public health, safety, or welfare. Such a license shall bear the designation "special" and shall state the conditions subject to which the license is granted.

1. Fence full length of Runway 19, 252 feet east of centerline penetrates the transitional surface of Runway 01/19.

2. Trees full length of Runway 19, 252 to 1,300 feet east of centerline penetrates the transitional surface of Runway 01/19.

3. Earth from 3,553 feet to 3,725 feet after the approach end of Runway 19, 320 feet to 750 feet right of centerline penetrates the transitional surface of Runway 01/19.

Additional Licensing Remarks:
