## JACKSONVILLE EXECUTIVE AT CRAIG AIRPORT

Jacksonville Executive at Craig Airport is located in Jacksonville, between the city's downtown business district and the Atlantic Ocean. The airport has two runways, with the longest runway measuring 4,008 feet. The airport can accommodate single and multi-engine general aviation aircraft.

Corporate aviation and flight training are the airport's primary activities. The airport's location near downtown attracts corporate and business users, while its proximity to Jacksonville's beaches attracts tourists and recreational fliers. Companies such as NetJets have regularly scheduled charter flights at the airport. With three flight schools based at the airport, flight training operations occur daily. The Jacksonville Sheriff's Aviation Unit, Civil Air Patrol, and an aerial surveying company are also based at the airport, and the airport also supports news reporting, banner towing, search and rescue, and public charters. The airport's fixed base operators, SkyHarbor and Craig Air Center, provide a full range of services to pilots and passengers.

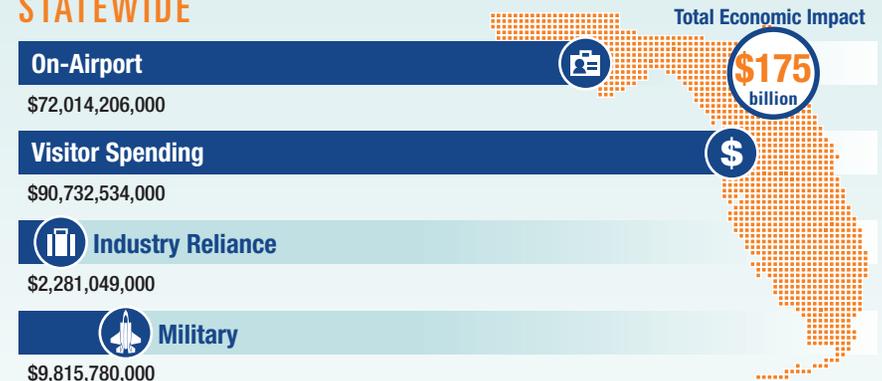

Previous versions of this Study used different terminology to communicate results. The following terms were updated: Direct Impacts changed to On-Airport Impacts and Indirect Impacts changed to Visitor Spending Impacts.

## Florida's Statewide Benefits From Aviation

Florida realizes significant economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered on-airport impacts, visitor spending impacts, and multiplier impacts.

Florida's 129 public-use airports (including 20 commercial service facilities) are a major economic engine of the State's economy. The aviation system keeps Florida connected to the global marketplace while simultaneously driving local economies. Florida's airports provide space and infrastructure for important activities such as manufacturing, logistics, tourism, and emergency response. Below is a summary of the total statewide economic impact as well as the impact of District 2.
