**Marianna Municipal Airport (MAI)**

## MARIANNA MUNICIPAL AIRPORT

Marianna Municipal Airport is located in Jackson County, approximately 60 miles west of Tallahassee. The airport has two intersecting runways that both measure 4,900 feet. The airport supports general aviation aircraft as well as frequent military training operations.

Most of the airport's eight on-site businesses are related to aviation maintenance and repair, including a propeller specialist that attracts customers from across the southeastern United States. Local government agencies, such as the Florida Fish and Wildlife Commission and Jackson County Sheriff's Office, have based aircraft at the airport. AIRHeart provides emergency medical aviation services. The Marianna Industrial Park provides space for manufacturing facilities and generates hundreds of jobs for local residents. The airport hosts an annual fly-in that features displays of military and recreational aircraft, skydiving demonstrations, and free helicopter rides. SkyWarrior, the airport's fixed base operator (FBO), serves the needs of airport users.

Previous versions of this Study used different terminology to communicate results. The following terms were updated: Direct Impacts changed to On-Airport Impacts and Indirect Impacts changed to Visitor Spending Impacts.

## Florida's Statewide Benefits From Aviation

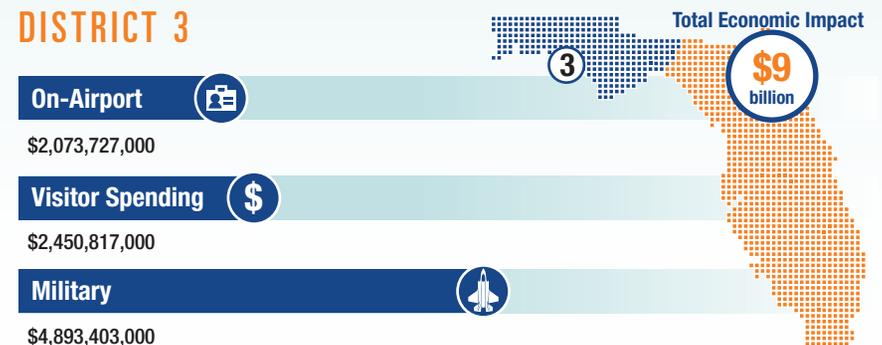

Florida realizes significant economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered on-airport impacts, visitor spending impacts, and multiplier impacts.

Florida's 129 public-use airports (including 20 commercial service facilities) are a major economic engine of the State's economy. The aviation system keeps Florida connected to the global marketplace while simultaneously driving local economies. Florida's airports provide space and infrastructure for important activities such as manufacturing, logistics, tourism, and emergency response. Below is a summary of the total statewide economic impact as well as the impact of District 3.
