MIAMI-OPA LOCKA EXECUTIVE AIRPORT

Miami-Opa Locka Executive Airport is located in Miami-Dade County, approximately 10 miles northwest of downtown Miami. The airport has three runways, with the longest runway measuring 8,002 feet. The airport serves a variety of general aviation activities and can accommodate most business jets.

The airport primarily supports business activities, flight training, and medical flights. One of the busiest U.S. Coast Guard Air/Sea Rescue Stations is located at the airport. The airport also has multiple fixed-base operators (FBOs) that serve both local and transient users, and aircraft maintenance and repair services are provided at the airport.

Florida's Statewide Benefits From Aviation

Florida realizes significant economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered on-airport impacts, visitor spending impacts, and multiplier impacts.

Florida's 129 public-use airports (including 20 commercial service facilities) are a major economic engine of the State's economy. The aviation system keeps Florida connected to the global marketplace while simultaneously driving local economies. Florida's airports provide space and infrastructure for important activities such as manufacturing, logistics, tourism, and emergency response. Below is a summary of the total statewide economic impact as well as the impact of District 6.
