THE ECONOMIC IMPACT OF

Executive Airport (ORL)

ORL

EXECUTIVE AIRPORT

Executive Airport is located in Orange County, approximately two miles east of downtown Orlando. The airport has two intersecting runways, with the longest runway measuring 6,004 feet. The airport accommodates general aviation business jet aircraft and serves the aviation needs of the metropolitan area. The airport is a designated reliever airport to the Orlando International Airport and has an on-site U.S. Customs and Border Protection office.

Due to its convenient location near industrial and business centers in Orlando, the airport primarily supports corporate business activity. The airport also supports medical air ambulance and public safety helicopter activity, and provides a great location for flight training. Two fixed based operators (FBOs) located at the airport serve the needs of local and transient users. The airport is engaged in the local community and hosts events, such as the Run for the Angels 5k, which regularly attracts hundreds of participants.

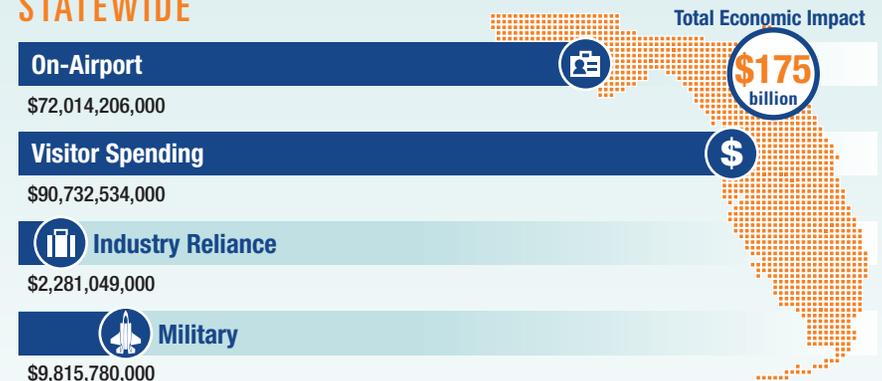

Previous versions of this Study used different terminology to communicate results. The following terms were updated: Direct Impacts changed to On-Airport Impacts and Indirect Impacts changed to Visitor Spending Impacts.

Florida's Statewide Benefits From Aviation

Florida realizes significant economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered on-airport impacts, visitor spending impacts, and multiplier impacts.

Florida's 129 public-use airports (including 20 commercial service facilities) are a major economic engine of the State's economy. The aviation system keeps Florida connected to the global marketplace while simultaneously driving local economies. Florida's airports provide space and infrastructure for important activities such as manufacturing, logistics, tourism, and emergency response. Below is a summary of the total statewide economic impact as well as the impact of District 5.
