TAMPA INTERNATIONAL AIRPORT

Tampa International Airport is located in Hillsborough County, about five miles west of downtown Tampa. The airport has three runways, with the longest measuring 11,002 feet. The airport's extensive facilities support a full range of commercial aircraft.

Tampa International Airport accommodates around 52,000 passengers daily, many of whom are visitors that contribute to the airport's visitor spending impacts. The airport also handles large volumes of air cargo from companies such as FedEx and Amazon. Locally, the airport supports aerial traffic and news reporting, while the Tampa Police Department aviation unit maintains a hangar on site. The airport also provides sports charters for local sports teams and serves as a gateway for high profile visitors. The airport is involved in the community and hosts United Way fund raisers and an annual 5k on the airfield. The airport's Airport Management and Intern Initiative provides internships and courses in aviation management to local student. Additionally, Tampa International Airport is an important staging and logistics area during natural disasters.

Total Output
\$14,451,785,000

Previous versions of this Study used different terminology to communicate results. The following terms were updated: Direct Impacts changed to On-Airport Impacts and Indirect Impacts changed to Visitor Spending Impacts.

Florida's Statewide Benefits From Aviation

Florida realizes significant economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered on-airport impacts, visitor spending impacts, and multiplier impacts.

Florida's 129 public-use airports (including 20 commercial service facilities) are a major economic engine of the State's economy. The aviation system keeps Florida connected to the global marketplace while simultaneously driving local economies. Florida's airports provide space and infrastructure for important activities such as manufacturing, logistics, tourism, and emergency response. Below is a summary of the total statewide economic impact as well as the impact of District 7.
