THE ECONOMIC IMPACT OF

Plant City Airport (PCM)

PLANT CITY AIRPORT

Plant City Airport is located in Hillsborough County, about 18 miles east of Tampa. The airport has one runway that measures 3,950 feet. The airport accommodates multi-engine general aviation aircraft and serves the general aviation needs of the region.

The airport primarily supports recreational flying by general aviation pilots. The airport was originally established to support the transport of locally farmed strawberries and has continued to support the local agriculture industry over the last 60 years. The airport also supports the local community by hosting the annual Plant City Chamber Planes, Trains, and Automobiles event, which regularly attracts several thousand attendees. The Experimental Aircraft Association (EAA) holds meetings at the airport and offers flights to youth to introduce them to aviation. Cars and taxis are available to serve those visiting the area, while the airport's fixed base operator is available to serve users' needs.

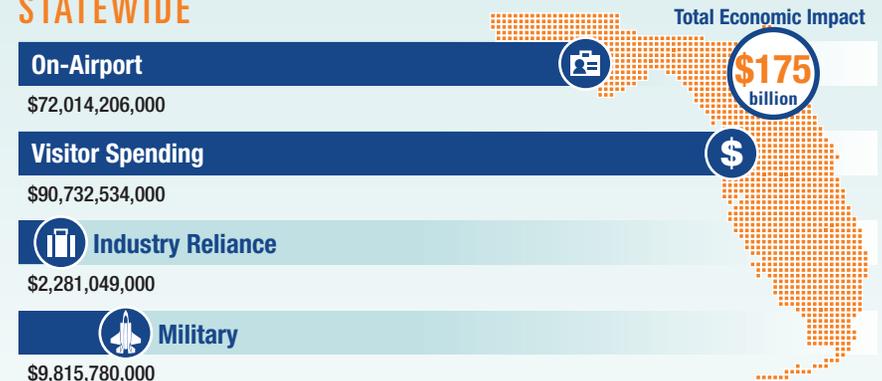

Previous versions of this Study used different terminology to communicate results. The following terms were updated: Direct Impacts changed to On-Airport Impacts and Indirect Impacts changed to Visitor Spending Impacts.

Florida's Statewide Benefits From Aviation

Florida realizes significant economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered on-airport impacts, visitor spending impacts, and multiplier impacts.

Florida's 129 public-use airports (including 20 commercial service facilities) are a major economic engine of the State's economy. The aviation system keeps Florida connected to the global marketplace while simultaneously driving local economies. Florida's airports provide space and infrastructure for important activities such as manufacturing, logistics, tourism, and emergency response. Below is a summary of the total statewide economic impact as well as the impact of District 7.
